Kovjunov Artom
9 class B

My dreams of working in childhood

In childhood, I dreamed of becoming a programmer, because we had a laptop and it was interesting for me to climb in it and then I was told that programmers.

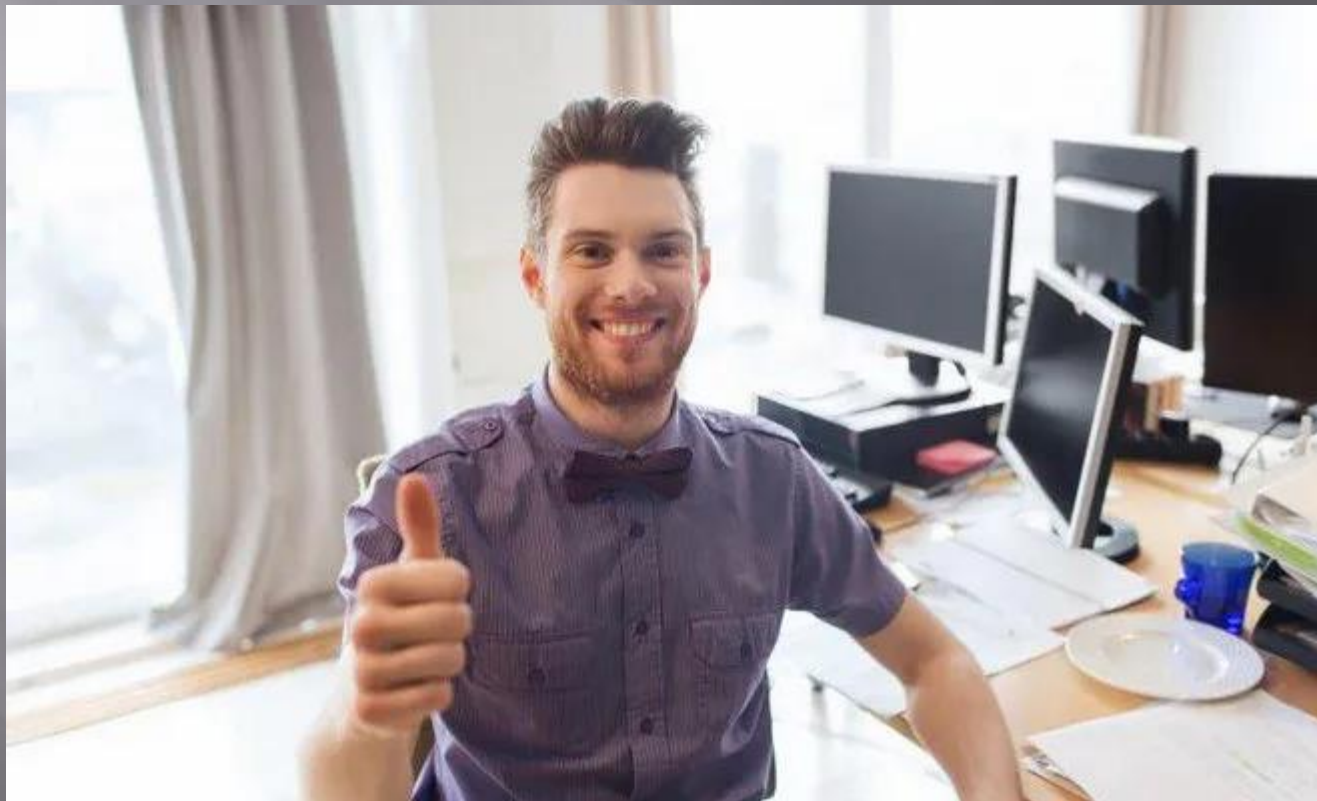

My favorite subject at school is computer science

My favorite subject at school is computer science, because since childhood I loved to climb in a computer and computer science helps me to better understand how a computer works.

Factors affecting the profession

For the main factor influencing the work is my own interest in this work since childhood.

Why do I like this profession?

In this profession I can learn a lot. So I can learn to create any applications that, if they gain popularity, will bring me daily income

Minus of this profession

At this work, as well as at all, there are disadvantages. For example, if you work in a team on a large project, you can simply not come home for a few days atoms and weeks. In this job, your eyesight is deteriorating and back problems may develop.

My plans after grade 9

After grade 9, I will take 4 subjects - Russian, mathematics, geography and computer science. I hope to pass the exams well and get a certificate.

My plans after the end of grade 9

After grade 9, I will study in college and will study the profession in detail.

What do you need to get this job?

To get this job you need: be constantly trained so as not to lag behind technology, you need to be responsible, able to work in a team and purposeful.
